

Project Design Phase-II

Data Flow Diagram & User Stories

Date	23 June 2026
Team ID	
Project Name	Software Installation Request Automation
Maximum Marks	4 Marks

Data Flow Diagrams:

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Employee (Requestor)	Software Request Submission	USN-1	As an employee, I can submit a software installation request through the Service Catalog by filling in Software Name, Version, Justification and Urgency	Request record (sc_request) is created and visible in ServiceNow	High	Sprint-1
		USN-2	As an employee, I will receive an email notification once my software request is submitted	Email notification is received confirming request submission	High	Sprint-1
		USN-3	As an employee, I can search for the catalog item easily using the Service Portal search	Catalog item appears when searching meta tag name in /sp portal	Medium	Sprint-1
Manager / Approver	Approval Management	USN-4	As a manager, I can receive an automatic approval request when an employee submits a software request	Approval record created in sysapproval_approver table	High	Sprint-1
		USN-5	As a manager, I can approve or reject the request and the employee gets notified automatically	Email sent to employee on approval or rejection	High	Sprint-1
IT Support Team	Task Fulfillment	USN-6	As an IT support member, I want a catalog task (sc_task) automatically assigned to me when a request is approved	sc_task created and assigned to Software Support group	High	Sprint-2
		USN-7	As an IT support member, I can update the task state from Open to Completed after installing the software	Task state changes to Completed and request is closed	High	Sprint-2
ServiceNow Admin	Automation & Configuration	USN-8	As a ServiceNow Admin, I want the workflow to automatically handle approvals and task creation without manual steps	Flow Designer workflow activates on catalog submission	High	Sprint-2
		USN-9	As a ServiceNow Admin, I can export the complete project as an Update Set XML and deploy to another instance	Update Set committed successfully with no missing elements	Medium	Sprint-3
