

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	23 June 2026
Team ID	
Project Name	Software Installation Request Automation
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Service Catalog Item	Create sc_cat_item for software installation requests, Add 4 variables: Software Name, Version, License Justification, Urgency
FR-2	Request Submission	Auto-generate sc_request on catalog submission, Auto-generate sc_req_item linked to the request
FR-3	Approval Workflow	Route approval to Manager/IT Admin via Flow Designer, Send email notification on approval or rejection
FR-4	Task Fulfillment	Auto-create sc_task assigned to Software Support Team, Set Wait for Completion to pause workflow until task is done
FR-5	Business Rule	Auto-raise incident when sc_task state = On Hold, Populate incident with license unavailability details
FR-6	Service Portal	Employee can search and submit request via /sp portal, Catalog item searchable using meta tag name

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Service Catalog item is simple and intuitive with clear variable labels and help text for employees to fill without IT knowledge
NFR-2	Security	Only authorized managers and IT Admins can approve requests. License compliance enforced through structured approval before task creation
NFR-3	Reliability	Flow Designer workflow reliably triggers on every catalog submission without manual intervention or failure
NFR-4	Performance	Approval notifications and task creation complete within seconds of request submission in ServiceNow
NFR-5	Availability	ServiceNow PDI instance available 24/7 for employees to submit requests and track status through Service Portal

NFR-6	Scalability	Workflow and catalog item can be extended to handle multiple software types, departments, and approval groups without redesign
